PROGRAMMING FOR THE INTERNET: MYSQL Project, Phase 2

LOGIN.PHP

Step 1

Remove the word **echo** from "echo \$numMembers = mysql_num_rows(\$result);" It should now look like: \$numMembers = mysql_num_rows(\$result);

When the page first loads, it should look like below.

Be sure to create a link to the addEditUser.php page if someone needs to create an account.

Welcome to YOUR NAM	Æ's website!	
You are logged in! username: padmin		

Access Level: admin

Edit User Information | Logout | View all users

Additional info:

"Edit User Information" should be a link to editUser.php | You can download this page from my site.

"Logout" is the same logout we did together.

"View all users" is a link to mysql.php
